Activity Manager

Job Family

Medical

Main Purpose

Help, accompany and transport patients from a place to another within the health facility, according to the instruction from the medical team and following hygiene standards, in order to ensure their safety.

Accountabilities

- Transport patients (e.g. from patient's room to the operating theatre, from his bed to the x-ray room, from the consultation to his room, etc.), assisting and helping them at all times.
 - Assist nursing staff with patient needs (i.e. lifting patients up, lying them down, bathing them, dressing them, changing bed linen or, if required, giving them their medicines)
 - Inform medical staff about any possible serious problem or complication during shift (i.e. patients, equipment, etc).
 - Ensure safe transport taking into consideration the state/conditions of the patient and the instructions given by nursing team or doctors.
 - Keep the patients and families informed about the place they are taking the patient to.
 - Follow at all times the universal hygiene standards and the instructions of health professionals.
 - Ensure the disinfection of his/her material (stretch, etc.).
 - Report all important information and assist in other tasks upon request.
-

Education

Literacy required.

Experience

None is required.

Language Level Description

A2 Basic User

Waystage or elementary

- Can understand sentences and frequently used expressions related to areas of most immediate relevance (e.g. very basic personal and family information, shopping, local geography, employment).
 - Can communicate in simple and routine tasks requiring a simple and direct exchange of information on familiar and routine matters.
 - Can describe in simple terms aspects of his/her background, immediate environment and matters in areas of immediate need.
