Level 10

Reports to (Hierarchical)

Project Medical Referent / Project Coordinator

Reports to (Functional)

Project Medical Referent- MTL / Medical Coordinator / Project Coordinator

Job Family

Medical and Paramedical / Operations

Main Purpose

Overall responsible for the development, implementation and monitoring of the HPCE program in MSF project, as well strengthening community action and being the responsible for capacity building of the HP team, according to MSF principles, protocols, and standards.

Preferably, the HPCE manager oversees the HPCE program in one project, but in specific situations the HPCE manager can have a flying role for multiple projects.

Accountabilities

HPCE strategy, activities and monitoring

- Responsible for the design/development of a regular updated HPCE strategy, activities, tools and monitoring system. Accountable of budget planning.
- Follow up and support the HP supervisor on the implementation of the HPCE strategy (workplan, according to the chronogram; tool creation; training)
- Ensure participatory approaches and patient/community consultation before and during implementation of the HPCE strategy.
- Ensuring that the right process is followed for the design the health education materials and participatory methods. (pretesting, validation of content, translation)
- Provide technical input and support to situation analysis (Rapid assessments/surveys / rumours-feedback monitoring) and ensure final reporting and information sharing with the project team.
- Supervision of the implementation of the community-based surveillance (data collection, active case finding, linkage to care, tracing)
- Support the HP supervisors on the organization of community meetings.
- Contribute to the updated community mapping (community mapping, stakeholders, GIS etc.)
- Ensure and regularly sharing with PC and medical team on updates regarding community mapping.
- Capitalisation: document on lessons learned and capitalize on experiences (handover report, end of mission report, capitalisation report)
- Ensure regular collaboration with other supervisors / managers (SRH, MH, NAM, MAM, Social Work, EH/WASH, LogM, Admin)

HP capacity building and supervision

- Responsible for the development plan for the HP team, based on the needs assessment (evaluation), as well for the follow up in capacity building through training, coaching, community of practice events.
- Managing and supervision of the quality of the HPCE activities done by the HPCE team at field level (based on a supervision checklist). (eg. Participatory methods and pedagogical techniques, active listening, use of tools, preparation /organisation)
- Responsible of the recruitment and evaluation process for HP profiles (in collaboration with HR department).

Education

Essential: bachelor degree in social sciences, behavioural sciences, public health, orientation health promotion / community health (or nursing diploma in community health).

Desirable: master's degree in any social sciences.

Experience

Essential 2 years working experience in related jobs (managing health promotion programs) outside your country or within MSF.

Experience in using qualitative methodology is essential. Experience in strategy design, implementation and monitoring is a must.

Language Level Description

B2 Independent User

Vantage or upper intermediate

- Can understand the main ideas of complex text on both concrete and abstract topics, including technical discussions in his/her field of specialisation.
- Can interact with a degree of fluency and spontaneity that makes regular interaction with native speakers quite possible without strain for either party.
- Can produce clear, detailed text on a wide range of subjects and explain a viewpoint on a topical issue giving the advantages and disadvantages of various options.
